INDUSTRY INSIGHTS - SEPTEMBER 2024

Walking on the Wild Side as the Space Industry covers Interorbital New Ground

With the World captivated by the first-ever commercial space walk, this September proved to be a history-defining moment for the future of space exploration.

But the Polaris Dawn mission is just the beginning of what made this month remarkable; with astronomical announcements and cosmic collaborations all unfolding at WSBW, there's much to explore in this month's insights.

From overseas expansions, international partnerships, and major project milestones, we are left eagerly anticipating what's next for Satellite and NewSpace as we enter the final stretch of 2024!
