HORIZON3.ai

Horizon3.ai is at the forefront of cybersecurity, redefining the landscape with its cutting-edge AI-driven solutions that elevate threat detection and penetration testing.

In September 2024, the company unveiled NodeZero Tripwires™, a game-changer for enhancing security measures. Nicholas Warner joined the board, bringing invaluable expertise, while Keith Poyser's appointment as Vice President for EMEA signals an exciting expansion.These bold moves showcase Horizon3.ai's commitment to innovation alongside transformative partnerships with FedHIVE and Tech Mahindra.

With its dynamic leadership, and industry collaboration Horizon3.ai is poised to lead the charge in AI-powered cybersecurity.

Website

LinkedIn

yubico

Yubico is a leading provider of secure authentication solutions, focused on enhancing cybersecurity for organizations and individuals worldwide.

PKO Bank Polski announced support for Yubico's YubiKey security keys, emphasizing the need for strong authentication. A new Yubico study also revealed that despite increasing cyberattacks, many still believe outdated username and password systems are sufficient, highlighting the critical need for education in modern security practices.

These advancements and updates demonstrate Yubico's dedication to promoting robust security measures in an increasingly digital landscape.

Website

LinkedIn

illumio

Illumio is a pioneering leader in micro-segmentation, dedicated to enhancing security for organizations through innovative solutions that protect data and applications.

Recently, Illumio was recognized as a leader in micro-segmentation by an independent research firm, validating its position in the market. Additionally, the company achieved ISO 27001 certification, further demonstrating its commitment to best practices in information security.

These milestones highlight Illumio's focus on providing robust security measures that address evolving cyber threats in complex IT environments, well equipping Illumio to lead the future of micro-segmentation

OBRELA

Website

LinkedIn

Obrela is an emerging leader in managed detection and response (MDR), focused on delivering advanced cybersecurity solutions for organizations facing complex threats.

Recently, Obrela was named a finalist for the InfoSec Innovator Awards in the "Cybersecurity Company of the Year" category, with the winner to be announced on October 31st. The company was also recognized for the third time in the 2024 Gartner Market Guide for MDR.

Additionally, Obrela welcomed Notis Iliopoulos as Vice President of Managed Response and Compliance, bolstering it's leadership team as they further strengthen their position in global cybersecurity.

CLAROTY

Website

LinkedIn

Claroty is a dynamic leader in cybersecurity, passionately focused on safeguarding critical infrastructure and operational technology in an increasingly interconnected world.

In August 2024, Claroty celebrated its recognition in the Forbes Cloud 100 for the third consecutive year underscores the company's dedication to innovation and excellence in cloud security. Furthermore The appointment of Tim Mackie as Vice President of Worldwide Channels reflects Claroty's commitment to expanding its reach and enhancing partnerships that amplify its mission.

These developments position Claroty not just as a provider but as a vital ally in the fight against emerging threats, addressing the pressing need for robust security in operational technology.

HOXHUNT

Website

LinkedIn

Hoxhunt is a leader in cybersecurity, transforming security awareness training and user behaviour analytics.

Its recent SCORM File Integration enables seamless linking of training programs with existing learning management systems, enhancing the training experience. Hoxhunt celebrated an impressive achievement, winning 26 awards in G2's autumn reports, showcasing its industry impact. Additionally, being named User Behaviour Analytics Platform of the Year in the 2024 Cybersecurity Breakthrough Awards underscores Hoxhunt's commitment to excellence.

These advancements reinforce Hoxhunt's role as a trusted partner in empowering users to effectively combat cyber threats.

SILVERFORT

Website

LinkedIn

Silverfort is a pioneer in identity-based security, providing cutting-edge solutions that protect businesses from cyber threats.

Silverfort launched its Identity-First Incident Response solution, significantly reducing investigation and recovery times from weeks to days. The company also integrated with Microsoft Sentinel and partnered with Arctic Group, further enhancing its threat detection and response capabilities.

These advancements highlight Silverfort's commitment to streamlining cybersecurity operations and improving response times in critical incidents, setting the company up to be a leader in the evolving landscape of identity-based security.

Checkmarx

Website

LinkedIn

Checkmarx is a global leader in software security, helping organizations protect their applications from vulnerabilities.

In 2024, Checkmarx was named a Customers' Choice in Gartner Peer Insights for Application Security Testing for the sixth year in a row. The company also partnered with ZAP to enhance dynamic application security testing and welcomed Inbal Shani to its board, strengthening its leadership team.

These achievements underscore Checkmarx's commitment to innovation and excellence in securing software. With cutting-edge solutions, Checkmarx is shaping the future of application security.

BeyondTrust

Website

LinkedIn

BeyondTrust is a global leader in intelligent identity and access security, helping organizations safeguard against cyber threats.

BeyondTrust was named a leader in the Gartner Magic Quadrant for Privileged Access Management and celebrated its FedRAMP High Authorization for Endpoint Privilege Management. The company also expanded its global footprint with a cloud deployment in South Africa, showcasing its commitment to delivering cutting-edge security solutions worldwide.

These achievements and recognitions reinforce BeyondTrust's position as a leader in privileged access management and identity security, as they continue to drive advancements in cybersecurity.
