Major Moves in Cyber: AI Platforms, Threat Visibility & Strategic Growth

This month's insights spotlight innovation and investment across the cyber security landscape.

From Vectra AI's advanced threat detection platform to Black Kite's push for proactive third-party risk management, the sector is surging forward.

Strategic partnerships, executive hires and major funding rounds further demonstrate how vendors are scaling rapidly to meet increasingly complex security demands.

BLACK KITE

Black Kite Unveils ThreatTrace for Proactive Risk Mapping

Black Kite has launched ThreatTrace, a tool designed to identify and map malicious infrastructure before it targets vendors in an organisation's supply chain.

Combining darkweb intelligence with real-time threat insights, ThreatTrace gives cyber teams a clearer picture of third-party risk exposure.

This tool enhances the platform's value for procurement and risk leaders working toward reducing supply chain vulnerabilities.

VECTRA®

Vectra AI Launches Next-Gen Threat Detection Platform

Vectra AI has revealed a reimagined threat detection and response platform, integrating AI-driven Attack Signal Intelligence.

Designed for security operations centres (SOCs), the platform aims to reduce alert fatigue by prioritising threats based on behavioural analysis.

With broader hybrid and multi-cloud visibility, Vectra is positioning its solution as a must-have for security teams managing complex environments.
